About us

Fujian Henglong Plastic Industrial Co.,Ltd

Company Profiles

Fujian Henglong Plastic Industrial Co.,Ltd.

was founded in Oct 1997, located at Taiwanese investment zone Longchi Jiaomei town Zhangzhou of Xiamen West Bank.

The main core products are IML thin wall plastic food container, which is including ice-cream box, butter box, yogurt cup, biscuit box, coffee cup, sauce cup and so on.

Our products are exported to North America, Europe, Oceania, Africa, Asia and other more than 30 countries and regions.

Enterprise culture

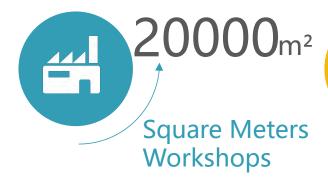

Enterprise scale

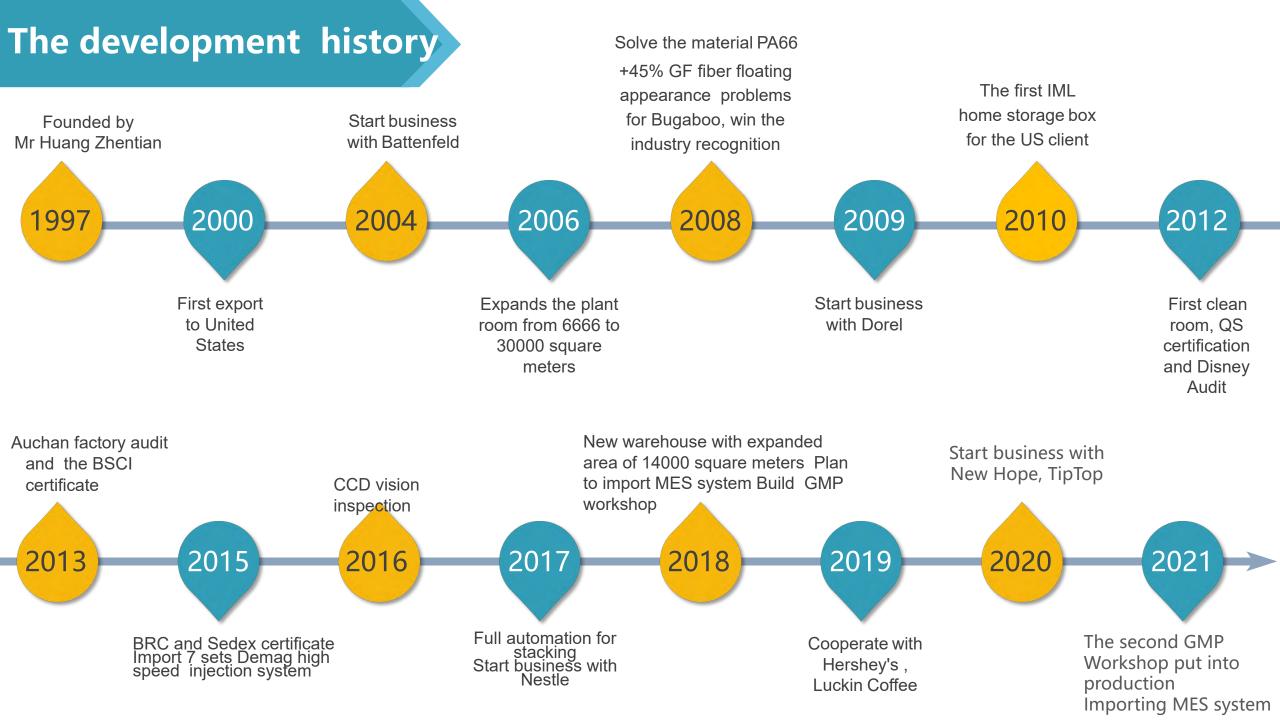

History of Honokage IML

Cooperate with Nestle and Goodman Fielder Cooperate with Mondelez and Lactalis

2018

Mondelez

LACTALIS

2020

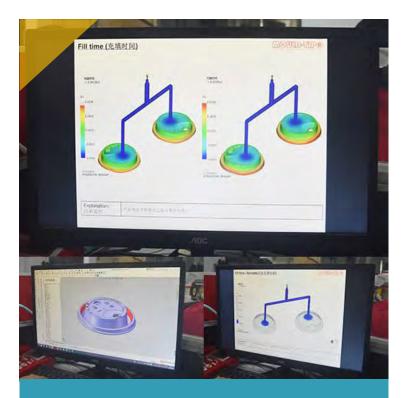

Cooperate with inm, Jianrun, Xufuji

Cooperate with Hershey's, Luckin Coffee ,Tongrentang

IML in-mold labeling of thin-walled food containers

R&D and Innovation

Independent research and development innovation of new products

New materials, new manufacturing environmental protection technology

Intelligent manufacturing

GMP workshop conforming to BRC standard Intelligent manufacturing demonstration workshop

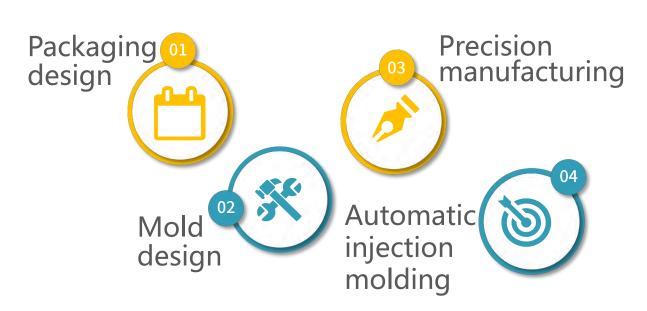

Automation

Automatic in-mold labeling production line CCD visual inspection automatic packaging system

Brand

HONOKAGE

With the ability of mass production and fast delivery, it has become the world leader among the suppliers of IML inmold labeling packaging containers.

Brand

Honokage can customize exclusive products for customers according to their requirements

Technology

Honokage has an experienced design and development team, with 45 patents in the appearance and structure design of IML packaging containers. Honokage can design and develop more marketable products for customers according to their needs and the use of products

Timely feedback

- The project management
- Without accountability enquiries

- 24 years of industry experience
- The knowledge sharing
- Mutual reciprocity and mutual benefit
- QS quality standard

- Global standard
- Hygiene and food standards
- The BRC standard

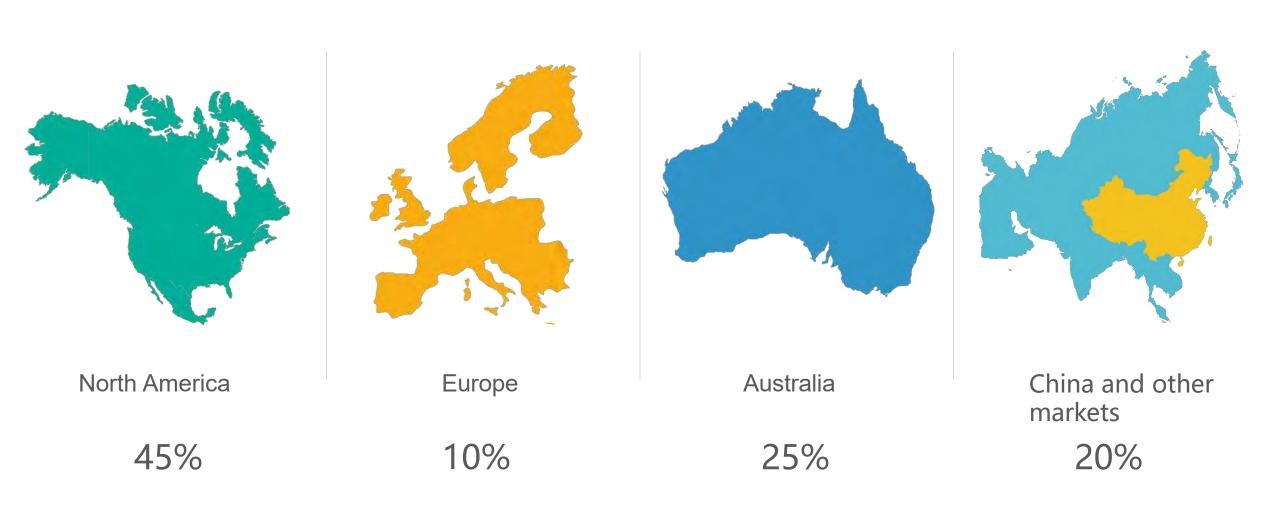

The geographical position

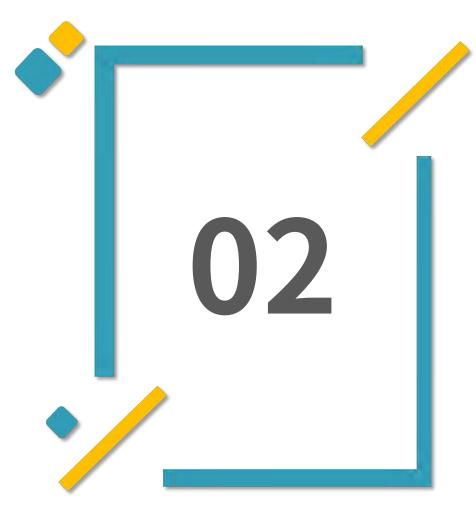

advantage

Main markets

Customers from over 35 countries

About our product

Fujian Henglong Plastic Industrial Co.,Ltd

IML food packaging

All the materials used are food grade, and have FDA report.

IML food packaging

On going project

Helped Nestle solve technical problem: Apply two IML labels at one time to lid.

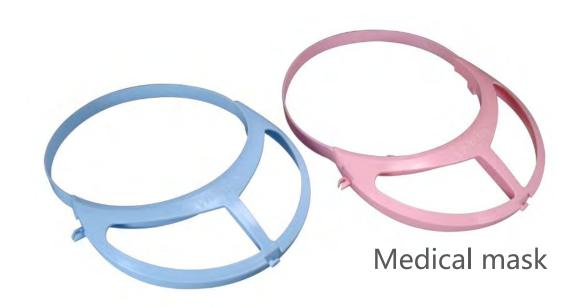

Medical series

Nucleic acid detection reagent set

Storage IML box

Storage and pets food buckets

Baby Products

Office Products

Electronic Products

Outdoor products

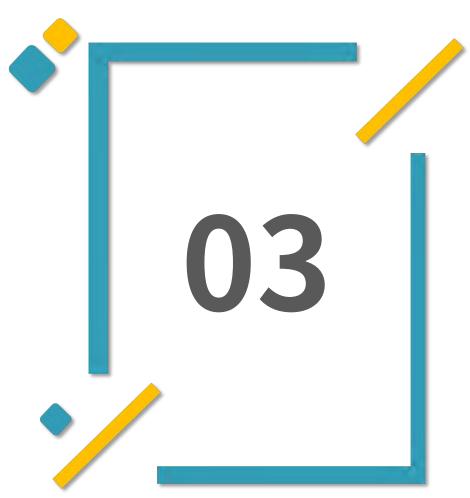

Sporting Goods Accessories

Our Advantages

Fujian Henglong Plastic Industrial Co.,Ltd

Technology center

engineering department

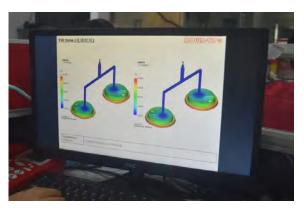

Development workshop

Biological laboratory

Comprehensive laboratory

Mold R&D Department

Material R&D Department

3D detection room

Cleaning workshop

• 800 square meters

- Haitian high speed injection molding labeling system
 8 sets
- 500,000 units per day

Cleaning workshop

• 2000 square meters

- Demag high speed injection molding labeling system
 12 sets
- Nissan IML products reached 500,000-900,000 sets

Cleaning workshop

• 1000 square meters

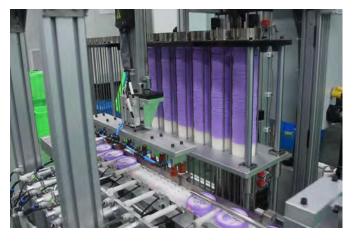

Demag high-speed injection molding labeling system7 sets

60 injection molding machines

Mold workshop

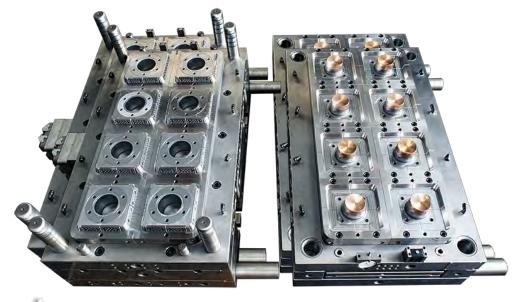

CNC Cutter	4 sets
Engraving	1 sets
EDM	3 sets
Grinding Machine	1 sets
Milling Machine	3 sets
Drilling Machine	1 sets
Lathe	1 sets
3D coordinate	1 sets

Tooling

- Independent R & D team and rich experience in mold development
- Special appointment of Australia mold design consultants
- It is designed to provide customers with the design and manufacture of thin-wall molds
 Efficient, high quality and low cost solutions

- German imported equipment and world class molds Manufacturing technology
- 16 hole mold, production cycle of 6 seconds

Automated process

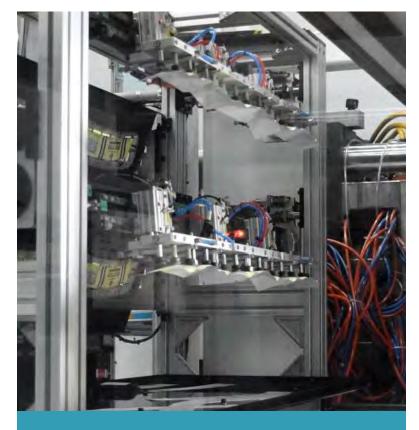

1 Automatic feeding system

2 Automatic cooling system

High-speed injection system

Automatic labeling system

6 Automatic stacking system

Supplier trusted

Quality guarantee

Deliver in time

C-TPAT Certificated

Quality guarantee

QS production license

Certified by the British Retail Consortium

FDA test report

Strictly control the quality according to QS and BRC standards. Including incoming material control, production process control, storage control System etc.

Warehouse space

25,000 square meters of storage space

Strictly in accordance with the BRC food storage establishment Independent and secure storage space

Food packaging Dedicated storage space

Industrial products Dedicated storage space

At present achievement

Fujian Henglong Plastic Industrial Co.,Ltd

National technical certification

National high-tech enterprise
Leader in the formulation of national standards for in-mold labeling (IML) thin-wall packaging products
High-tech enterprise of Fujian Province
Intelligent Manufacturing Demonstration Workshop of Fujian Province
Fujian Provincial Key Technology Transformation Enterprise
Fujian IML products leading enterprises
Zhangzhou Technology Center of Fujian province recognized enterprises
Fujian province "specialized and special new" small and medium-sized enterprises
Fujian province science and technology small giant enterprise
New generation of information technology and manufacturing integration development project enterprise
Fujian province industry and information technology key new product promotion

Certifications

ISO 14001

ISO 9001

Patents: Total 45 patents

Major customers

Sales and R&D team

CREATING A PERFECT FIRST IMPRESSION!

In the future, you will thank yourself for your efforts

Looking forward to 2022

- Expansion of GMP Phase II Project Construction
- Add 12 sets of in-mold labeling automation system
- Run and continuously optimize MES system to meet customer's different needs
